Tangent Console

designer **Artefatto Design Studio**

The Tangent Console, older brother to the sketch side table, is the more refined, more mature, member of the family. Also inspired by sketching lines and geometry; one bent piece of metal provides all the support the console needs to stay standing.
The oval top, connecting at a tangent to the metal sheet, provides a surface for the console to be used. Just two pieces or two shapes creating a fully functioning console unit. The metal sheet is available in any metal finish or RAL colour. The top is available in metal or wood.

140 x 40 x 80 H cm

Available for outdoor
